

How to customize GUI in Kylone?

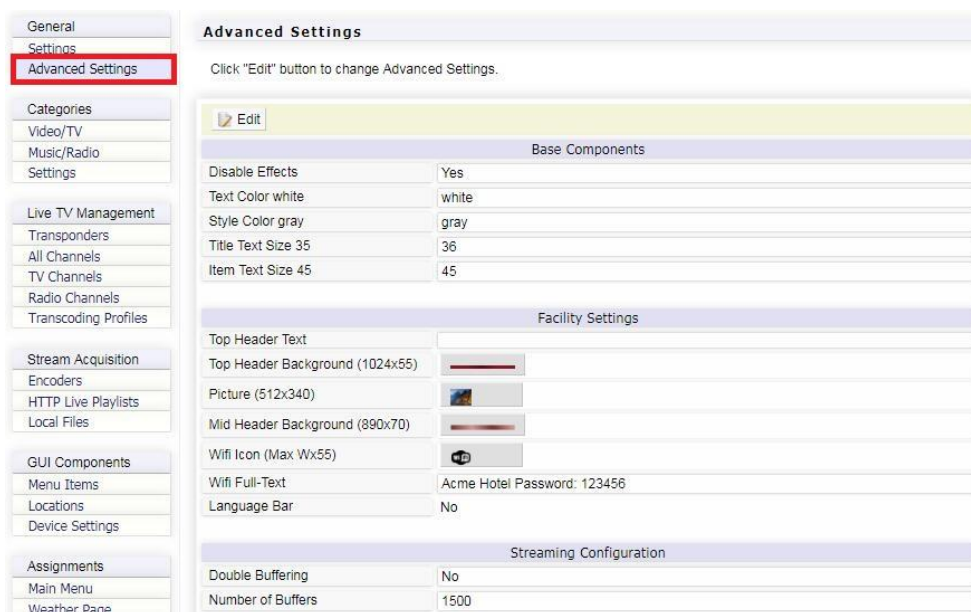

1. To Customize homepage:

- > Navigate to "Content" > "General" > "Setting"
- > Click "Edit" and replace the "Customer Logo" and "Background"
- > You can use HTML in Banner Text area

>Navigate to "Content" > "General" > "Advanced Settings"

> Click "Edit" and customize the "Header text", "Header Background", "Homepage picture", "WIFI Icon" and so on.

2. To customize sub-menu icon:

- > > Navigate to “Content” > “GUI Components” > “Menu Items”
- > Click to select Menu item
- > Click “Edit” to customize “Display Name”, “Record Name” and “Logo”.
